

# Pecora Product Cross Reference - Glazers

| Sealant Type/Manufacturer   | PECORA           | TREMCO                               | Sonneborn         | SIKA                       | DOW Corning | GE - Momentive                           |
|---|------------------|--------------------------------------|-------------------|----------------------------|-------------|--|
| <b>Polyurethane Sealants</b>  |                  |                                      |                   |                            |             |  |
| One Part Polyurethane   | DYNATROL I       | DYMONIC, Tremflex 25, Vulkan 116/230 | Sonolastic NP-1   | Sikaflex 1A, Sikaflex 15LM |             |  |
| Two Part Polyurethane   | DYNATROL II      | DYMERIC 511                          | Sonolastic NP - 2 | Sikaflex 2C                |             |  |
| Two Part Security Polyurethane  | Dynaflex         |                                      |                   | Sikaflex2CTG               |             |  |
| Single Component Security Polyurethane  | Dynaflex SC      |                                      | Sonneborn Ultra   | Sikaflex 1A, TR            |             |  |
| Pick Proof Epoxy  | EP1200           |                                      |                   | Sikadur 31, 33             |             |  |
| <b>Silicone Sealants</b>  |                  |                                      |                   |                            |             |  |
| Non Staining Silicone   | 864, 895, 890    |                                      |                   |                            | 756         |  |
| Acetoxy Silicone (A)  | 860              | Proglaze                             | OMNIIGLAZE        |                            | 732/999A    | SC1000/1200                              |
| Low Modulus Silicone (N)  | 864 NST          | SPECTRUM 3                           | OMNISEAL          |                            | 795         | UltraPruf II SCS2902                     |
| Ultra Low Modulus Silicone (N)  | 890 NST          | SPECTRUM 1                           |                   |                            | 790         | Silpruf-LM, Silpruf NB SCS 9000, SCS2700 |
| Field Tintable Ultra Low Modulus Silicone (N)                                       | 890 FTS, NST     | Spectrum -4TS                        |                   |                            |             |  |
| Field Tintable Ultra Low Modulus Silicone, Textured                                 | 890 FTS-TXTR     |                                      |                   |                            |             |  |
| Medium Modulus Silicone (N) (Structural Glazing)                                    | 895 NST          | SPECTRUM 2                           |                   |                            | 795, 995    | Ultraglaze SSG4000, SCS4000, SCS2800     |
| Fast-Cure Silicone (N)  | 896              | TREMSIL 600                          |                   |                            | 1199A       | SilGlaze II/ SCS2800                     |
| Sanitary Silicone   | 898/860          | TREMSIL 200                          | OMNIPLUS          |                            | 786         | SCS 1700                                 |
| Construction Silicone   | 864NST           |                                      |                   |                            | CWS**       | SCS1200/1201                             |
| Acrylic Latex   | AC-20 + SILICONE | 834                                  | SONOLAC           |                            |             |  |
|   | AVW-920          | Tremco 1500                          |                   |                            |             |  |
|   | AC20FTR          | Smoke & Sound                        |                   |                            |             |  |
| Non-Curing Butyl  | BA-98            |                                      |                   |                            |             |  |
|   | BC-158           | BUTYL                                | BUTAKAUK          |                            |             |  |
| Butyl Glazing Tape  | Extru-Seal       |                                      |                   |                            |             |  |
| Preformed Silicone Profiles (N) (for "bridging over" existing sealants and gaskets) | SIL-SPAN         | Spectrum EZ Seal                     |                   |                            | Dow 123     | Ultra SpanUS1100                         |
